Physiomics plc

("Physiomics") or ("the Company")

Editorial Appointment

Physiomics consultant Dr Hitesh Mistry appointed to editorial board of International Journal of Radiation Oncology-Biology-Physics

[Physiomics plc](#) (AIM: PYC), is pleased to announce that one of its long-term consultants and collaborators, Dr Hitesh Mistry, has been appointed to the editorial board of the International Journal of Radiation Oncology-Biology-Physics (RedJournal). The Journal is affiliated to the American Society for Radiation Oncology and has an impact factor of 5.55 (2017) making it the #1 journal for Radiation Oncology.

Physiomics believes that the continuing academic activities and output of its staff and consultants plays an important role in attracting and retaining clients. The Company is working on a number of commercial projects involving radiation treatment and plans to showcase some of its work in this area at a major conference later this year.

About Physiomics

Physiomics plc (AIM: PYC) is a solutions provider to the R&D based pharmaceutical and biotechnology industry with a focus on oncology. The Company's Virtual Tumour technology uses computer modelling to predict the effects of cancer drugs and treatments to improve the success rate of drug discovery and development projects while reducing time and cost. The predictive capability of Virtual Tumour has been confirmed by over 60 projects, involving over 25 targets and 60 drugs, and has worked with clients such as Merck KGaA, Merck & Co, Bayer and Lilly.

Based in Oxford UK, the Company works with clients worldwide to support their pre-clinical and clinical oncology development programs. Its team of scientists and computer modelling experts provide bespoke solutions encompassing data, analytics and insight.

Physiomics senior management has academic and commercial expertise, including over 90 years collectively of working in oncology and/or computational biology and over 100 publications in peer reviewed journals.
